

The background of the slide is a photograph of a modern, multi-story building with a facade of dark wood and large glass windows. In the foreground, there is a pond reflecting the sky and the building. Several young trees with white blossoms are planted in a row along the edge of the pond. The sky is blue with some white clouds.

Nicolai Siegel, Physiological Chemistry:

Linking chromatin and genome organization to antigen expression

Susanne Koch, Physiological Genomics:

Preclinical gene therapy strategies to treat retinitis pigmentosa

Steffen Dietzel, WBex:

Imaging Opportunities at the Core Facility Bioimaging

A large, stylized green logo consisting of the letters 'B', 'M', and 'C' intertwined. The 'B' and 'M' are connected at the top, and the 'C' is positioned below them, forming a continuous shape.
