

Phillip Korber, Molecular Biology

The first genome-wide map of absolute nucleosome occupancy

Almir Aljovic (AG Bareyre, Clinical Neuroimmunology)

Activity-dependent remodeling of axonal circuits after spinal cord injury

Valentin Baumann (AG Stricker, Institute of Stem Cell Research)

The role of Sox1 in neural stem cell identity

BMC Science Seasons

September 16, 2019: 13.00 – 14.00 h Small Lecture Hall
