

**Michaela Smolle, Physiological Chemistry:**

Chromatin remodelers and their roles in limiting noncoding transcription

**Jan Kranich, Immunology:**

Development of novel phosphatidylserine-binding reagents for the *in vivo* detection of apoptotic cells and cells decorated with extracellular vesicles

**Barbara Walzog, Cardiovascular Physiology and Pathophysiology:**

Integrin signaling and neutrophil trafficking in innate immunity

**June 21, 2021: 13:00 - 14:00 h**  
**virtual meeting via Zoom**
